

LIBRARY SERVICES

Jovila Academy offers library services to students offering special courses taught by its Tutors. You have to register and subscribe to gain access books in the Library. When you subscribe, you will be able to read:

1. **Practical Research Methods.** This will help you plan and design a research project on any topic in your area of study.

2. **Project Writing and Presentation.** You can read samples of concept notes, proposals, and final project report. You can learn from these samples and write your own without stress.

3. **Peer Review Couching:**

You will read articles sent to the Research Directors for peer review and the review report on the article. You can learn from the research critique and peer review report so that if you are given article to critique, you could do so.

4. Tutors in Jovila Academy may place lecture notes on the courses they teach for you to read and learn.
